Introducing...

Bridging the Mindset Gap: 30 Day Experience

It's time to move from "struggle and stress" to "flow & success"

Bridging the Mindset Gap is a group experience based on what has worked best for my private clients to let go of their inner "stress monster," release the subconscious limiting beliefs that keep them in a pattern of self-doubt and under a "success-ceiling," so they can become unstoppable in reaching their business goals.

The flow goes like this...

- Module 1: Unearth Your Limiting Beliefs
- Module 2: Release Your Limiting Beliefs
- Module 3: Embrace Your Leadership
- Module 4: Unleash the Potential of Your Team

Each week, you will receive simple (yet powerful) assignments that will guide you step-by-step. You will have access to a group of distributors on the same journey, and ongoing input from me personally.

When? May 31-June 30, 2016

What's included?

- Live weekly training calls (with recordings) to guide you step-by-step through the experience.
- Weekly opportunity to practice what you learn with other participants (before taking it to your team)
- Activities to do at home that will allow shifts in your life and business to flow easily
- Private online group communication with other members of the group
- Ongoing support from me personally

****Bonus!** Today's participants will also receive a FREE Private Coaching Session AND a \$50 discount when you register TODAY!
